for a
Day!

Mother's Day ♡ Sunday, May 10

THE PERFECT PICNIC GUEST.

The pangolin (or "scaly anteater") is a shy and elusive native of Asia and Africa that typically sleeps during the day and hunts at night, using its powerful claws and long, sticky tongue to unearth and devour as many as 70 million ants and termites a year. Invite a pangolin to your next picnic for insect control duty!

ANIMAL APPETITES
